### Products

## Dry Wipers

We are committed to supplying the highest quality, most consistent cleanroom wipers. We invest in technology, innovation and quality to create and maintain state-of-the-art products. From Vectra® processed, sealed-border wipers to our Technicloth® nonwoven blends, our products produce superior results.

**Wiper Comparison Chart** - A comprehensive chart comparing wiper characteristics by substrate, particles, fibers, NVRs, ions and absorbency.

Our Dry Wipers are available in a variety of configurations.

**Blended Nonwoven Wipers** - Hydroentangled, polyester/cellulose blends for use in areas where moderate contamination control is required

**Sealed-Border Synthetic Wipers** - Large and specialty wipers for the most critical environments

**Specialty Wipers** - A variety of unique wipers custom-engineered to address specific cleaning applications

**Sterile Wipers** - Developed to clean aseptic cleanrooms, without compromising the sterile nature of those environments

**Synthetic Wipers** - Cut, laundered and cleanroom packaged wipers for critical environments

**Vectra® Process Sealed-Border Wipers** - Ultraclean, sealed-border wipers for the most critical environments
